# AIPHONE® GTSYSTEM Lentrance station (modular type) Entrance station (all-in-one type)

**Guard station** 

# OPERATION MANUAL

Entrance station (modular type)

Entrance station (all-in-one type)

**Guard station** 

Thank you for selecting Aiphone for your communication needs. Please read this manual carefully before installation, and keep this in a safe place for future reference.

The illustrations and images used in this manual may differ from the actual items.

# PRECAUTIONS

**Prohibited** 

🕚 Do not dismantle unit

```
Keep unit away from water
```

Be sure to follow the instruction

#### (Negligence could result in death or serious injury.)

- (1) 1. Do not dismantle or alter the unit. Fire or electric shock could result.
- ♦ 2. Do not put any metal and flammable material into the unit through the openings. Fire, electric shock, or unit trouble could result.
- 3. Keep the unit away from water or any other liquid. Fire or electric shock could result.
- ♦ 4. During an electrical storm, do not touch the unit. Electric shock could result.
- 5. If there is any smoke, unusual odor, or abnormal sound, or if you drop or damage the unit, turn off the system power breaker immediately. Fire or electric shock could result.
- Solve the second of the se
- ◊ 7. Do not use the unit in/under following locations/conditions. If not observed, it may result in noises or malfunctions.
  - Where use of the unit is prohibited, such as in a hospital
  - Near an electric medical equipment (e.g. operating rooms, ICU, or CCU)
  - Near automatic control equipment such as auto doors or fire-alarm boxes
  - · In the area within 15cm from a cardiac pacemaker

#### 

# (Negligence could result in injury to people or damage to property.)

- 1. Do not put anything on or cover the unit with cloth, etc. Fire or unit trouble could result.
- 2. Do not apply high pressure on the screen. If fractured, injury could result.
- S 3. If the LCD is punctured, do not touch the liquid crystal inside. Inflammation could result. If contact should occur, flush or rinse area with water thoroughly and consult your doctor.
- ♦ 4. Be sure to perform a call test with the handset on the hook. If you operate the hook switch with the handset on your ear, a sudden call etc. may arrive causing damage to your ear.
- S. Do not place your ear near the speaker during use. An unexpected loud sound could cause hearing damage.
- 6. When cleaning the wall with a high-pressure water sprayer, be careful not to spray on the entrance station. If not observed, it may result in fire or electric shock.

#### **General Precautions**

- 1. Keep the unit more than 1 m (3.3') away from radio or TV set.
- 2. Keep more than 20 cm (7-7/8") away from other radio equipment, for example floor heating controller, wireless router or cordless telephone, etc. It may cause unwanted noise and video distortion.
- Talk within 30 cm (12") from this unit. If you are too far away, it may be difficult to hear audio.
- 4. When installing and using this unit, protect subject's privacy, portrait rights, etc. on your own responsibility.
- As to other manufacturer's devices (such as sensor, detectors, door releases) used with this system, comply with the Specifications and Warranty conditions that the manufacturers or venders present.
- 6. Avoid using this unit in places under direct sunlight. If it is unavoidable, block out light during use.
- 7. When putting a hearing aid into T-mode and approaching the unit, the intercom system may be affected by radio frequency interference etc., depending on the installation environment.
- Please receive and retain all configuration data from the supplier. If you lose the configuration data, there are cases where maintenance and after-sales service calls may incur additional setup fees.
- 9. The area to be monitored by the sensor should be free of obstacles such as ornamental plants.

#### Notice

- We will under no conditions be liable for any damages or losses resulting from this product's contents or specifications.
- We will under no conditions be liable for damage occurring due to the inability to communicate due to malfunctions, problems, or operational errors in this product.
- The unit is inoperative during power failure.
- This system is not intended for life support or crime prevention. It is just a supplementary means of conveying information. Aiphone will under no conditions be liable for loss of life or property which occurs while the system is being operated.
- In areas where broadcasting station antennas are close by, this system may be affected by radio frequency interference.
- Please note the LCD panel, though manufactured with very high precision techniques, inevitably will have a very small portion of its image elements always lit or not lit at all. This is not considered a unit malfunction.
- The unit may get slightly warm, but this is not a malfunction.
- During communication, if you speak before the other person has finished talking, your voice may not come through clearly. Conversation will proceed smoothly if you speak when the other person has finished talking.
- The entrance station is intended to be mounted on a wall only. It cannot be used on a desktop.
- Available functions and services are limited according to the specifications of the installed system.
- If you speak in a fixed tone, the noise-cut function may judge it to be a noise and cut the transmission, but this is not a malfunction.
- Using a mobile phone or professional-use radio equipment such as walkietalkie close to the system may cause a malfunction.
- Warm-color lighting shining on the camera may change the tint of the image on the screen.
- The outline of video images displayed may differ from that of the actual person(s) or background, but this is not a malfunction.
- When the unit's screen is illuminated with strong light, the image looks white or silhouetted. But this is not a unit trouble.
- When outside temperature lowers sharply after rainfall, etc., the inside of the camera may fog up slightly, causing a blurry images, but this is not a malfunction. Normal operation will be restored when moisture evaporates.
- When using a fluorescent light that shines around the camera, the screen colors may variously change (color rolling), but it is not a malfunction.
- If the entrance station freezes during winter time, the picture may become difficult to see or the buttons of the entrance station may not operate.

# **READ THIS BEFORE USING THE STATIONS**

# SYSTEM CONFIGURATION

The GT system consists of up to 8 main buildings and 24 tenant buildings.

#### Main building:

A control section that functions as a main entrance, guard station, security center, administration office, etc. A main building includes no residential/tenant stations. You can call up all of the residential/tenant stations and guard stations from an entrance station or guard station in the same system (site).

\* A station that is not programmed cannot be called.

\* Modular type entrance stations cannot be installed in a main building. Only all-in-one type can be used.

#### Tenant building:

A section of collective housing. A tenant building includes residential/tenant stations, entrance stations and guard stations. You can call up all of the residential/tenant stations and guard stations from an entrance station in the same tenant building. However, you cannot call stations in another tenant building.

#### Coverage of calling, communication and monitoring

The following table shows the coverage of calling, communication, and monitoring from a tenant building and a main building.

NOTE: Performance depends on the settings. If you cannot call even when ✓ is indicated, its setting is not configured.

	Incoming call											
			Same ten	ant buildi	ng	Other ten	ant buildi	ings	Same mai building		Other ma buildings	
			Entrance st.	Guard st.		Entrance st.	Guard st.	Residential/ tenant st.	Entrance st.			Guard st.
Tenant building	Entrance st.	Calling/ communication	-	1	1	-	-	-	-	-	-	-
	Guard st.	Calling/ communication	1	1	1	-	-	-	1	1	1	1
о О		Monitoring	1	-	-	-	-	-	-	-	-	-
Main building	Entrance st.	Calling/ communication	-	~	1	-	1	1	-	1	-	~
J I	Guard st.	Calling/ communication	1	1	1	1	1	1	1	1	1	1
		Monitoring	1	-	-	1	-	-	1	-	1	-

✓ : Possible — : Impossible

About the term "building" and "section": The term "section" is used on the setting screens of entrance stations and guard stations instead of "building". "Section" and "building" have the same meaning in this manual.

Standby screen of guard station

(\*3): The display differs depending on the settings.

- Communication starts and the talk indicator lights up.
- \* Audio guidance will be heard depending on the settings.

#### When the door is released

The door release indicator lights up.

- \* Audio guidance will be heard depending on the settings.
- \* Depending on the settings, only the resident name may be displayed.
- \* The list is displayed in order of either unit # or resident name.

#### **2** Press <sup>(2)</sup>.

The call indicator will light up and you will hear a call tone.

Audio guidance will be heard depending on the settings.

#### When the call is answered

Communication starts and the talk indicator lights up.

- 3.
- \* Audio guidance will be heard depending on the settings.

#### When the door is released

The door release indicator lights up.

\* Audio guidance will be heard depending on the settings.

# Calling with the 10 key module

- Searching for a unit by entering the unit #
- 1 In standby mode, enter the numbers using [0] to [9] on the 10-key to display the target unit # and resident name.

# **2** When the target unit # and resident name is displayed, press ③.

The call indicator will light up and you will hear a call tone.

- \* Audio guidance will be heard depending on the settings.
- \* If there is no relevant unit #, "NO ENTRY" is displayed.

NO ENTRY

\* When the residential/tenant station that has been called is in use, the IN USE LED lights up to indicate that the residential/ tenant station cannot be called.

(In an expanded system, there may be a case that a residential/ tenant station cannot be called even if the IN USE LED is off.)

#### When the call is answered

30

Communication starts and the talk indicator lights up.

\* Audio guidance will be heard depending on the settings.

#### When the door is released

The door release indicator lights up.

\* Audio guidance will be heard depending on the settings.

Searching for a unit by entering resident name

- **1** In standby mode, press  $\overset{\textcircled{}}{\to}$  on the 10-key.
- 2 When "ENTER A LETTER" is displayed, enter a letter using the 10-key to display the target unit # and resident name.

The number and resident name for the unit whose initial corresponds to the entered letter will be displayed.

(e.g.) Enter "S".

- \* Pressing  $\bigtriangleup$  or  $\bigtriangledown$  searches for the next unit # and resident name.
- \* Depending on the settings, only the resident name may be displayed.
- \* When the unit # is set to not be displayed, a letter can be entered without pressing <sup>(★)</sup>.
- \* If there is no relevant resident name, "NO ENTRY" is displayed.

#### NOTES:

- Pressing (a) or (b) for approximately 2 seconds will display resident names in succession.
- If both unit # 111 and 1111 exist, the resident name for unit 111 will be displayed when 1, 1, 1 is entered, and the resident name for unit 1111 will be displayed if 1 is entered one more time.
- Stations can be set to display in order by unit #. (The order starts with the lowest digit from 0 to 9 and then the order goes by letter.) In cases where unit # such as A101, A201, A901, A1001, and B101 exist, the order starts with the lowest digit and goes in the order A101, A201, A901, B101, A1001.

3 When the target unit # or resident name is displayed, press (2).

The call indicator will light up and you will hear a call tone.

\* Audio guidance will be heard depending on the settings.

#### When the call is answered

Communication starts and the talk indicator lights up.

\* Audio guidance will be heard depending on the settings.

#### When the door is released

The door release indicator lights up.

\* Audio guidance will be heard depending on the settings.

- 11 -

#### Calling with the all-in-one type entrance station GT-DMB-LVN/GT-DMB-N

The following diagram shows the screen transitions starting from the standby screen. One of the standby screens shown below is preset to this station. Find the standby screen of this station from  $\mathbf{A}$  to  $\mathbf{E}$  below and confirm the transition from it, and refer to the designated page for the calling operation.

## A Confirming the target unit in the quick list

Unit # and resident names frequently called are preset to be displayed in the quick list.

\* Up to 4 units can be displayed.

1 In standby mode, press △ and ▽ to display the target unit, or 10-key to change the standby screen.

The "UNIT LIST" screen **B** or "ENTER UNIT #" screen **C** is displayed.

- **2** Follow the operating procedure of either **B** or **C** depending on the displayed screen.
  - \* **C** is available in a tenant building/section only.

1 In standby mode, press △ and ▽ or 10-key to display the target unit # and resident name.

The 10-key can be used to enter unit #, or by pressing \*, then the 10-key can be used to enter letters (resident name).

- \* Depending on the settings, only the resident name may be displayed.
- \* The list is displayed in order of either unit # or resident name.
- \* If you have entered a wrong number, press  $\textcircled{\mathbf{X}}$  to return to standby mode.

#### 2 When the target unit is displayed, press **(**.

The target unit is called.

\* Refer to "When the target unit is successfully called" at the end of (2-1) for details.

- When the target unit number is numerals only
- 1 In standby mode, enter numbers using [0] to [9] on the 10-key to display the target unit #.
  - \* The 10-key can be used even after pressing  $\bigtriangleup$  or  $\bigtriangledown$ .

- \* Depending on the system, only the resident name may be displayed.
- \* If you have entered a wrong number, press X to return to standby mode.

#### 2 When the target unit # is displayed, press 🛋.

The target unit is called.

\* Refer to "When the target unit is successfully called" at the end of **2-1** for details.

#### When the target unit number is alphanumeric

#### 1 In standby mode, press 💌 on the 10-key.

\* The 10-key can be used even after pressing  $\bigtriangleup$  or  $\bigtriangledown$ .

- **2** Enter letters using the 10-key to display the target unit #.
  - \* Refer to the next page for how to enter letters.

**3** When the target unit **#** is displayed, press **.** 

The target unit is called.

\* Refer to "When the target unit is successfully called" at the end of **2-1** for details.

standby mode.

How to enter letters
(e.g.) Entering "CATHY"
1. To enter "C", press and three times.
2. Press 🔽 once. <sup>(*1)</sup>
3. To enter "A", press <b>2</b> once.
4. To enter "T", press w8 once.
5. To enter "H", press <b>4</b> twice.
6. To enter "Y", press <b>m9</b> three times.
(*1): This step is needed for entering different letters with the same key sequentially.
To enter a special character
, : Press 0 once.
- : Press 0 twice.
. : Press 0 three times.
/ : Press 0 four times.
Space : Press 0 five times.
$\mathcal{E}$ : Press 0 six times.
$\emptyset$ : Press 0 seven times.
Å : Press 0 eight times.
* If you have entered a wrong letter, press $\mathbf{X}$ to return to

D Searching for a building in the building list and entering unit #

HOW TO CALL	
1.BUILDING LIST	
2.SELECT	
3.ENTER UNIT #	
4.CALL	

1 In standby mode, press △ and ▽ to display the target building number and name.

- ${\bf 2}~$  When the target building is displayed, press  ${\color{black}\fbox{ \begin{subarray}{c} \line \l$
- **3** Enter numbers or letters using the 10-key to display the target unit #.
  - \* For entering numbers or letters, follow steps 1 and 2 of
    C "When the target unit number is numerals only"
    or "When the target unit number is alphanumeric".

4 When the target unit # is displayed, press .

The target unit is called.

\* Refer to "When the target unit is successfully called" at the end of **2-1** for details.

#### E Entering a building # and unit #

HOW TO CALL	
1.ENTER BLDG#	
2.SELECT	
3.ENTER UNIT #	
4.CALL	

- 1 In standby mode, enter numbers or letters using the 10-key to display the target building.
  - \* For entering numbers or letters, follow steps 1 and 2 of

#### **C** - **♦** "When the target unit number is numerals only"

#### or **\diamond** "When the target unit number is alphanumeric".

- **2** When the target building number is displayed, press 🔳.
- 3 Enter numbers or letters using the 10-key to display the target unit #.
  - \* For entering numbers or letters, follow steps 1 and 2 of
    - **C \chi** "When the target unit number is numerals only"

or **•** "When the target unit number is alphanumeric".

4 When the target unit # is displayed, press .

The target unit is called.

Refer to "When the target unit is successfully called" at the end of **2-1** for details.

#### When the target unit is successfully called

The call indicator will light up and you will hear a call tone.

\* Audio guidance will be heard depending on the settings.

#### When the call is answered

Communication starts and the talk indicator lights up.

\* Audio guidance will be heard depending on the settings.

#### When the door is released

- The door release indicator lights up.
- \* Audio guidance will be heard depending on the settings.

#### NOTES:

- If "DENIED" is displayed or returns to standby mode, the entered unit #/resident name is not registered.
- Enter the target unit # exactly. Otherwise, "DENIED" is displayed or returns to standby mode.
- If both unit # 111 and 1111 exist, the resident name for unit 111 will be displayed when 1, 1, 1 is entered, and the resident name for unit 1111 will be displayed if 1 is entered one more time.
- Stations can be set to be displayed in order by unit #. (The order starts with the lowest digit from 0 to 9 and then the order goes by letter.) In cases where unit # such as A101, A201, A901, A1001, and B101 exist, the order starts with the lowest digit and goes in the order A101, A201, A901, B101, A1001.

2-2

#### Door release

#### Door release by using the access code

- <sup>\*</sup> The access code is preset by the system installer or administrator.
- 1 In standby mode, enter [#] and then the access code (4 to 6 digits) using [0] to [9] on the 10-key.

(e.g.)

When the access code is "4567", enter "#", "4", "5", "6", "7".

The door is released.

- The door release indicator lights up
- Audio guidance will be heard depending on the settings.
- \* If there is no relevant number, "DENIED" is displayed.
- \* Door release is enabled even while the IN USE LED is lit.

# Door release by an NFC-compliant IC card, etc.

A card incorporated with an NFC tag can be used to release a door. To use, the ID of the NFC tag must be registered as a door release code.

# **1** Pass an NFC-compliant IC card over the NFC reader.

\* Put the card within 10 mm of the NFC reader. Otherwise, the code may not be read correctly.

The door is released.

- The door release indicator lights up.
- Audio guidance will be heard depending on the settings.
- \* Door release is enabled even while the IN USE LED is lit.

NOTE: Do not overlap IC cards when passing them over the NFC reader. The code may not be read correctly.

2-3 Other

\* Calling from an entrance station is disabled while the IN USE LED is lit. Wait until the IN USE LED turns off.

NOTE: For a multi building system with lift control, if you unlock from a room and terminate call at the same time, the entrance station may not unlock properly.

The preset entrance station is called, and then communication is enabled.

- **2** Talk hands-free or lift the handset.
- **3** To end communication, press \_\_\_\_\_ or hang up handset.
- Transferring video image taken by an entrance station camera or surveillance camera to a residential/tenant station (only when is displayed in standby mode)
- 1 Press <sup>∠□</sup>/<sup>□</sup> (∠□).
- 2 Select a residential/tenant station by one of the following methods A C.
- A Press (I) and then or ( select the target residential/tenant station. **B** (1) Enter a number by using the 10-key to display the list of residential/tenant stations that include the number. (2) Press (O) or (O) to select the target residential/tenant station. ③ Press 🛄 (⊚) or 🛞. **C** ① Press **\*** and enter a letter by using the 10-key to display the list of residential/ tenant stations that include the letter. (2) Press ((3)) or ((())) to select the target residential/tenant station. ③ Press 📺 (⊚) or 🛞 3 Press  $\frac{\sqrt{2}}{1000}$  (2). 4 When the resident/tenant station answers and accepts the visitor, press or hang up handset.

<sup>\*</sup> Step 2 differs depending on the settings.

# **5** OPERATIONS DURING COMMUNICATION

## 5-1 Transferring a call

A call from an entrance station can be transferred to a residential/ tenant station via a guard station.

### 1 After the guard station is called from an entrance

# 2 Press (I) or enter the unit # by using [0] to [9] on the 10-key.

The list of residential/tenant stations is displayed.

# 3 Select the target residential/tenant station, then press <sup>₩<sup>C</sup>/<sub>1</sub></sup>/<sub>1</sub> (••••).

The call is transferred to the residential/tenant station.

- \* "ON HOLD" is displayed on the entrance station and no sound is heard at the entrance station.
- 4 When the residential/tenant station answers and

accepts the visitor, press  $\underbrace{} \stackrel{\forall i \in I}{=}$  or hang up handset to establish communication between the entrance station and the residential/tenant station.

\* When there is no answer from the residential/tenant station,

hang up handset and pick it up again, or press

to communicate with the entrance station.

\* Step 2 differs depending on the settings.

≤**`⇒I))** TALK

#### **Reference:**

then

Reception mode  $(\rightarrow \textbf{8-2})$ 

When there is a call from an entrance station to a residential/tenant station, it is first transferred to the guard station, so a call tone sounds and the video at the entrance station is displayed on the guard station.

## 5-2 Door release

1 While receiving a call or communicating with an entrance station, press ⊕.

Door release is activated at the entrance station.

\* Audio guidance will be heard depending on the settings.

#### NOTES:

- For an all-in-one type entrance station:
- The door lock is released for the preset time. If the preset release time is "0", it can be released while the button is pressed and held.

For a modular type entrance station:

If the VR1 dial (inside the cover) is set to "M (Momentary)", it can be released while the button is pressed and held.

• Depending on the electric door release system that you use, door release may be active only while the door release button is pressed.

#### 

Be sure to confirm the visitor securely before releasing the door if the entrance station has no camera.

and

#### **GUARD STATION**

# Operating an optional device

You can operate an optional device such as a light on this station.

The optional device turns on.

- A signal is sent to the device installed in the site. Please refer to the specifications of the device.
- If no optional device is installed, nothing happens when the button is pressed.

### Viewing and adjusting video at an entrance station

You can view video at the target station when receiving a call from or communicating with an entrance station with a camera, or monitoring it. The video can be adjusted as desired by using the following functions.

\* These functions are not available for a door station.

### Switching Zoom/Wide

The display mode can be switched between zoom and wide by each

Wide

Zoom

NOTES:

- The preset position of zoom image depends on the setting.
- When the display mode switches from wide to zoom, the zoom image is displayed at the preset position.
- Depending on the properties of the camera, the wide image may appear more distorted than the zoom image but this is not a malfunction.
- The image range of the zoom mode and wide mode differs. The edge of wide image will not be displayed with the zoom mode.

### Pan & Tilt

When a zoom image is displayed, pressing

- At night, the object image may be blurred and less-visible when moving the image from right to left or up and down because illumination to the object is reduced. The same applies to a moving object.
- The pan & tilt function is not available for a video door station (JO-DV) .

#### Adjusting screen view

If the video on the screen is difficult to see, you can adjust the screen view.

The backlight or night sensitivity is automatically adjusted.

- \* The discrimination between day and night is performed automatically by this station.
- \* The adjustment result may vary depending on the setting.

<Day>

[Before adjustment]

<Night>

[After adjustment]

[After adjustment]

#### To restore the screen view before adjustment

### Press 🕮 again.

The icon is cleared and the screen view before adjustment is restored.

- Pressing is at night may make visitors' faces easier to see, but
- may also make moving objects more difficult to see.
- The screen view adjusting function is not available for a video • door station (JO-DV).

#### 

You can monitor an entrance station or door station.

- \* When monitoring an entrance station or door station with a camera, you can view the video at the station and hear the sound.
- \* The monitoring function is not available for an entrance station or door station without a camera.

- \* For monitoring a door station, start from step  $\mathbf{5}$ .
- 1 In standby mode, press <u>□</u> ().

The search item list is displayed.

# 2 Select "ENTRANCE" by pressing () or (

**3** Press ((()) or (()). The entrance station list is displayed.

### **4** Select the target entrance station by pressing

Selected entrance station number and name

Entrance station numbers and names are displayed in alphabetical or numerical order. \* The arranging method differs depending on the setting.

- \* Press () or () to turn the page of the list.
- \* The list is displayed in order of either station number or name.

5 Press

The sound at the station is heard, and the video is displayed on the screen.

\* While monitoring, you can switch zoom/wide, pan & tilt, and adjust the screen view.  $(\rightarrow 5-4)$ 

### 6 [To communicate with the station]

Communication with the station starts and "->" is displayed.

\* Until this step, the monitored stations cannot hear any sound from the guard station.

### 7 To end monitoring or communication,

- Monitoring ends automatically after about 30 seconds.
- Only entrance stations that can be selected by the guard station can be monitored.
  When no door station is installed, pressing has no
- When no door station is installed, pressing effect on the display.

#### Select the target entrance station. 6

0

#### 8 [To communicate with the station]

is displayed.

Until this step, the monitored stations cannot hear any sound from the guard station.

#### 9 To end monitoring or communication,

Press

or hang up handset.

- Monitoring ends automatically after about 30 seconds.
- Only entrance stations that can be selected by the guard station can be monitored.
- MONITOR When no door station is installed, pressing has no effect on the display.

7-1

# OTHER OPERATIONS

# Checking for missed calls and calling back

If this station fails to respond to a call from a residential/tenant station, "MISSED CALLS" flashes continuously on the display in standby mode, and the status LED on the unit flashes. Check the missed calls and call back if necessary.

# 1 To check for missed calls, press () in standby mode.

A record of missed calls is displayed.

When there are two or more missed calls, they are listed in reverse chronological order.

- On a guard station in a main section, building #, building names, and unit # are displayed.
- 2 To call back, select the target unit by pressing Selected unit # and name On a guard station in a main section, the building #, building name, and unit # of the selected unit are displayed. MISSED CALLS 102 AIPHONE SMITH 101 102 AIPHON 103 DENTIST 201 I AINF 202 MENIN Д Ŵ \* Press  $(\bigcirc)$  or  $(\bigcirc)$  to turn the page of the list. \* Depending on the settings, only the unit # may be displayed. ( → → TALK 3 Press  $\overset{\text{VED CALL}}{\square}$  ( $\bigtriangleup$ ), or lift handset. When the call is answered Communication starts and "-`D" is displayed. **4** To end communication, OFF or hang up handset. press

- The guard station can hold up to 20 missed calls.
- A record of answered calls is not kept.
- While a record of missed calls are displayed, this station cannot enter program mode.

# 7-2 Receiving an emergency call

When an emergency alarm switch is locked (or when a wire disconnection occurs), an alarm sounds and an "EMERGENCY" screen is displayed on this station. Check for the unit that sent the emergency call, and take the necessary action.

The unit # and name of the unit that sent the emergency call

On a guard station in a main section, the building #, building name, and unit # are displayed.

(**!**))

The alarm stops and a record of emergency calls is displayed.

- \* On a guard station in a main section, building #, building names, and unit # are displayed.
- \* When linked with multiple guard stations, stopping the alarm on any guard station will stop the alarm of all the guard stations.

2 To communicate with the unit, press  $\overset{\text{weight}}{\square}$  ( ),

or lift handset.

→ TALK

\* When there are two or more emergency calls, select one by

- \* Press  $(\bigcirc)$  or  $(\bigcirc)$  to turn the page of the list.
- \* The list is displayed in chronological order.

#### When the call is answered

Communication starts and "->> " is displayed.

**3** To end communication, press \_\_\_\_\_ or hang up handset.

NOTE: While a record of emergency calls are displayed, this station cannot enter program mode.

#### **GUARD STATION**

#### To display a record of emergency calls

Flashes when there is one or more unchecked emergency calls.

### **1** Press ( In standby mode.

A record of emergency calls is displayed.

#### To call a room that sent the emergency call

Select the target record by pressing 0 or 0, and then press  $\underbrace{w^{a}}_{m_{k}}$  (  $\bigtriangleup$  ),  $\underbrace{\overset{a}}{\overset{a}}_{m_{k}}$  or lift handset.

NOTE: The emergency alarm keeps flashing until the target record is deleted from the list. To delete it, select it on the list and then press  $(\hat{\mathbf{w}})$ .

The residential/tenant station keeps sounding the alarm until the emergency alarm switch is restored at the room. In such case, the record of emergency calls cannot be deleted with the guard station. Unless the alarm is restored at the room, no call can be made from the guard station to the room. Please make sure the alarm is restored at the room.

- If an emergency call is already active on this station and this station is in communication, another guard station cannot interrupt. (An in-use tone will be heard from handset or speaker of the guard station.)
- The emergency alarm is given priority even when the system is in use. (Alarms can be activated at the same time for up to 5 units. This excludes GT-2C-L and GT-2C.)
- Emergency calls can be made while the system is in use.
- With the GT-2C-L and GT-2C, it is possible to transfer to a guard station even when there is a security alarm, depending on the settings.
- Even when the call tone volume is set to mute on the guard station, an alarm goes off at the maximum volume.

# 8 SETTING

- To adjust the receive volume while being called or in communication
- 1 While being called or in communication, press <sup>stille</sup>.
- **3** Adjust the volume by pressing or

#### Switching to reception mode 8-2 This section describes the reception mode and how to configure it. Mass	Approx. 130g (0.29 lbs.)

#### Camera module panel (GT-VP)

Material	Zinc die cast
Color	Metallic beige
Dimensions	110 (W) x 95 (H) x 8 (D) mm
	4-5/16" (W) x 3-3/4" (H) x 5/16" (D)
Mass	Approx. 150g (0.34 lbs.)

#### Audio module (GT-DB/GT-DB-V/GT-DB-VN)

Power source	Supplied from GT-BC
Ambient temperature	- 10°C - +60°C (+14°F - +140°F)
Material	Self-extinguishing ABS resin
Dimensions	108 (W) x 93 (H) x 53.4 (D) mm 4-1/4" (W) x 3-11/16" (H) x 2-1/8" (D)
Mass	GT-DB, GT-DB-V: Approx. 210g (0.47 lbs) GT-DB-VN: Approx. 220g (0.49 lbs)

#### Audio panel (GT-DBP)

Material	Zinc die cast
Color	Metallic beige
Dimensions	109.7 (W) x 94.9 (H) x 7.9 (D) mm 4-5/16" (W) x 3-3/4" (H) x 5/16" (D)
Mass	Approx. 95g (0.21 lbs)

#### Name scrolling module (GT-NSB)

Power source	DC 24V supplied from a power supply unit (PS-2420 etc.)
Ambient temperature	- 10°C - +60°C (+14°F - +140°F)
Material	Self-extinguishing ABS resin
Dimensions	104.6 (W) x 88.3 (H) x 49.1 (D) mm 4-1/8" (W) x 3-1/2" (H) x 1-15/16" (D)
Mass	Approx. 140g (0.31 lbs)

#### Name scrolling module panel (GT-NSP-L)

-	
	Panel: Zinc die cast
Material	Window: Polycarbonate
	Bottom: Chrome plated zinc die cast
Color	Metallic beige
D	110 (W) x 96 (H) x 31.2 (D) mm
Dimensions	4-5/16" (W) x 3-3/4" (H) x 1-3/4" (D)
Mass	Approx. 200g (0.49 lbs.)

#### Call switch module (GT-SW)

Power source	Supplied from GT-DB/GT-DB-V/GT-DB-VN
Ambient temperature	- 10°C - +60°C (+14°F - +140°F)
Material	Self-extinguishing ABS plastic
Dimensions	90.5 (W) x 106 (H) x 42.5 (D) mm
	3-9/16" (W) x 4-3/16" (H) x 1-11/16" (D)
Mass	Approx. 90g (0.199 lbs.)

#### 1-call button panel (GF-1P)/2-call button panel (GF-2P)/ 3-call button panel (GF-3P)/4-call button panel (GF-4P)

Material	Panel: Zinc die cast Window: Polycarbonate Bottom: Chrome plated zinc die cast
Color	Metallic beige
Dimensions	110 (W) x 95.2 (H) x 15.8 (D) mm
	4-5/16" (W) x 3-3/4" (H) x 5/8" (D)
Mass	GF-1P: Approx. 180g (0.40 lbs.)
	GF-2P: Approx. 190g (0.42 lbs.)
	GF-3P: Approx. 190g (0.42 lbs.)
	GF-4P: Approx. 200g (0.45 lbs.)

#### 10-key module (GT-10K)

· · · · · · · · · · · · · · · · · · ·	
Power source	Supplied from GT-DB/GT-DB-V/GT-DB-VN
Ambient temperature	- 10°C - +60°C (+14°F - +140°F)
Material	Self-extinguishing ABS plastic
Dimensions	106 (W) x 90.5 (H) x 42.5 (D) mm
	4-3/16" (W) x 3-9/16" (H) x1-11/16" (D)
Mass	Approx. 90g (0.199 lbs.)

#### 10-key module panel (GF-10KP)

Matarial	Panel: Zinc die cast Box: Chrome plated steel
	· · · · · · · · · · · · · · · · · · ·
Color	Metallic beige
Dimensions	110 (W) x 96.1 (H) x 38.2 (D) mm
	4-5/16" (W) x 3-13/16" (H) x 15/16" (D)
Mass	Approx. 310g (0.69 lbs.)

#### Address module (GT-AD)

Power source	Supplied from GT-DB/GT-DB-V/GT-DB-VN
Ambient temperature	- 10°C - +60°C (+14°F - +140°F)
Material	Self-extinguishing ABS plastic
Dimensions	105.6 (W) x 88.3 (H) x 42.5 (D) mm
	4-3/16" (W) x 3-1/2" (H) x1-11/16" (D)
Mass	Approx. 90g (0.199 lbs.)

#### Address module panel (GF-AP)

Material	Panel: Zinc die cast Window: Polycarbonate
Color	Metallic beige
Dimensions	110 (W) x 95.2 (H) x 14.3 (D) mm 4-5/16" (W) x 3-3/4" (H) x 9/16" (D)
Mass	Approx. 150g (0.34 lbs.)

#### Blank panel (GF-BP)

Material	Zinc die cast
Color	Metallic beige
Dimensions	110 (W) x 95.2 (H) x 14.3 (D) mm 4-5/16" (W) x 3-3/4" (H) x 9/16" (D)
Mass	Approx. 190g (0.42 lbs.)

# 4-module front frame (GT-4F)/3-module front frame (GF-3F)/2-module front frame (GF-2F)

Material	Front frame: Zinc die cast Mounting bracket: Stainless steel
Color	Metallic beige
Dimensions	GF-2F: 135 (W) x 225 (H) x 16 (D) mm 5-5/16" (W) x 8-7/8" (H) x 5/8" (D) GF-3F: 135 (W) x 320 (H) x 16 (D) mm 5-5/16" (W) x 12-5/8" (H) x 5/8" (D) GT-4F: 135 (W) x 425 (H) x 16 (D) mm 5-5/16" (W) x 16-3/4" (H) x 5/8" (D)
Mass	GF-2F: Front frame: Approx. 400g (0.89 lbs.) Mounting bracket: Approx. 200g (0.45 lbs.) GF-3F: Front frame: Approx. 490g (1.09 lbs.) Mounting bracket: Approx. 250g (0.56 lbs.) GT-4F: Front frame: Approx. 660g (1.46 lbs.) Mounting bracket: Approx. 290g (0.64 lbs.)

### Entrance station (all-in-one type)

#### All-in-one entrance station (GT-DMB-N/GT-DMB-LVN)

Power source	DC 24V supplied from a power supply unit (PS-2420
	etc.)
Ambient temperature	- 10°C - +60°C (+14°F - +140°F)
Material	Panel: Stainless steel
	Case: Self-extinguishing ABS resin
Color	Panel: Stainless steel with hairline finishing
Color	Case: Black
	GT-DMB-N: 150 (W) x 320 (H) x 38.2 (D) mm
Dimensions	5-7/8" (W) x 12-5/8" (H) x 1-1/2" (D)
Dimensions	GT-DMB-LVN: 150 (W) x 425 (H) x 38.2 (D) mm
	5-7/8" (W) x 16-3/4" (H) x 1-1/2" (D)
	GT-DMB-N: Approx. 1,200g (2.70 lbs)
Mass	GT-DMB-LVN: Approx. 1,500g (3.3 lbs)

### Guard station

#### Guard station (GT-MKB-N)

Power source	DC 24V supplied from a power supply unit (PS-2420 etc.)
Communication	Open voice: Voice-actuated Handset: Voice-actuated/Full-duplex (only when the other side is talking using the handset of GT-MKB-N or GT-1D)
Ambient temperature	0 - 40°C (+32°F - +104°F)
Monitor	3.5 inch TFT color LCD
Mounting	Desktop use (with desktop stand) or surface wall-mount
Material	Self-extinguishing ABS resin
Color	Black
Dimensions	250 (W) x 189 (H) x 59 (D) mm 9-13/16" (W) x 7-7/16" (H) x 2-5/16" (D)
Mass	Approx. 820g (1.81 lbs) When used with desk stand: Approx. 1,200g (2.70 lbs)

### Door station

# Vandal-resistant video door station (surface-mount) (JO-DV)

Power source	Supplied from guard station
Communication	Open voice hands-free communication
Ambient temperature	- 20°C - +60°C (- 4°F - +140°F)
Matarial	Front panel: Zinc die cast
Material	Main unit: Self-extinguishing
Color	Front panel: Silver
	98 (W) x 173 (H) x 27 (D) mm
Dimensions	3-7/8" (W) x 6-13/16" (H) x 1-1/16" (D)
Mass	Approx. 650g (1.44 lbs.)
Remarks	IP54, IK08

# **4 REGULATIONS**

#### FCC

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- · Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications to this equipment not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Privacy of communications may not be ensured when using this telephone.

To ensure safety of users, the FCC has established criteria for the amount of radio frequency energy that can be safely absorbed by a user or bystander according to the intended usage of the product. This product has been tested and found to comply with the FCC criteria. To comply with FCC RF exposure requirements, the device must be installed and operated 20 cm (8 inches) or more between the product and all person's body.

Keep a distance of more than 10 cm (3-15/16") from person's body while speaking. If you use the device within 10 cm (3-15/16"), please use within 1 minute.

#### INDUSTRY CANADA

CAN ICES-3 (B)/NMB-3(B)

This device complies with Industry Canada's licence-exempt RSSs. Operation is subject to the following two conditions: (1) This device may not cause interference; and (2) This device must accept any interference, including interference that may cause undesired operation of the device.

#### RED

Hereby, Aiphone Co., Ltd. declares that the radio equipment type [GT-DB-VN, GT-DMB-N, GT-DMB-LVN, GT-MKB-N, GT-BCXB-N] is in compliance with Directive 2014/53/EU. The full text of the EU declaration of conformity is available at the following internet address: https://www.aiphone.net/

GT-MKB-N: 13.56MHz / Max. 20.0 dBm GT-DMB-N: 13.56MHz / Max. 20.0 dBm GT-DMB-LVN: 13.56MHz / Max. 20.0 dBm GT-DB-VN: 13.56MHz / Max. 20.0 dBm

#### NCC

電信法第48條 低功率電波輻射性電機管理辦法

#### 第十二條

經型式認證合格之低功率射頻電機,非經許可,公司、商號或 使用者均不得擅自變更頻率、加大功率或變更原設計之特性及 功能。

#### 第十四條

低功率射頻電機之使用不得影響飛航安全及干擾合法通信;經 發現有干擾現象時,應立即停用,並改善至無干擾時方得繼續 使用。

前項合法通信,指依電信法規定作業之無線電通信。

低功率射頻電機須忍受合法通信或工業、科學及醫療用電波輻射性電機設備之干擾。

The object area of  $\mathbf{X}$  is the EU.

# 5 WARRANTY

Aiphone warrants its products to be free from defects of material and workmanship under normal use and service for a period of 2 years after delivery to the ultimate user and will repair free of charge or replace at no charge, should it become defective upon which examination shall disclose to be defective and under warranty. Aiphone reserves unto itself the sole right to make the final decision whether there is a defect in materials and/or workmanship; and whether or not the product is within the warranty. This warranty shall not apply to any Aiphone product which has been subject to misuse, neglect, accident, power surge, or to use in violation of instructions furnished, nor extended to units which have been repaired or altered outside of the factory. This warranty does not cover batteries or damage caused by batteries used in connection with the unit. This warranty covers bench repairs only, and any repairs must be made at the shop or place designated in writing by Aiphone. This warranty is limited to the standard specifications listed in the operation manual. This warranty does not cover any supplementary function of a third party product that is added by users or suppliers. Please note that any damage or other issues caused by failure of function or interconnection with Aiphone products is also not covered by this warranty. Aiphone will not be responsible for any costs incurred involving on site service calls. Aiphone will not provide compensation for any loss or damage incurred by the breakdown or malfunction of its products during use, or for any consequent inconvenience or losses that may result.
