

Notify changes of the supported OS version for the Intercom App

Thank you very much for using our Intercom App.

To provide better performance of the Intercom App, we are going to change operating environment as follows.

We appreciate your understanding for this changes.

Applicable Intercom App list

- 1. Intercom App Type B
- 2. AIPHONE Type GT
- 3. AIPHONE IXG
- 4. Aiphone GT Setup Tool for Android

Effective date

- iOS : Middle of July 2022
- Android : Middle of July 2022

Each supported version after the change

OS	Before the change	After the change
iOS	10.0 and later	12.0 and later
Android	6.0 and later	8.1 and later

- ※ Please note that we are not able to provide individual guidance on how to check or upgrade each OS, or on the status of compatibility in your environment.
- ※ It is not guaranteed the operation on all mobile phones or tablets.
- ※ Even when mobile phones or tablets have the supported OS, it may not work depending on special settings of mobile phone and tablet, available storage space, Internet speed and environment.
